FAUZAN

Website Developer

responsible for planning and developing software solutions and web applications, supporting and maintaining a company's websites and digital products.

ABOUT ME

I have just graduated with a D4 degree in Informatics Engineering, I have had an interest in the field of informatics engineering since I was in high school, so I am very enthusiastic to continue developing my knowledge and skills in this field. After completing my education, I hope to pursue a successful career in the world of information technology. I am interested in getting involved in innovative projects and learning new things that can improve my abilities as a professional in this field. With a passion for learning and high dedication, I am confident that I can achieve my career goals and make a meaningful contribution to the information technology industry.
